**Task 1**

**Read the texts below. Match choices (A-H) to (1-5). There are three choices you do not need to use.**

**Sports and Life**

- 1 When you play, you might need some new protective gear, including modified shoes (such as those with inserts or arch supports or those designed for use in a particular sport), tapings (tape used to wrap a knee, for example, to provide extra support), knee and elbow braces, and mouth guards. These devices help support and protect your body part from strains, direct blows, and possible injury. To help prevent injury, be sure to warm up adequately before practice and games. Also, know your limits. If any body part begins to hurt, stop immediately and rest. It's your body's way of telling you something is not right. So, play, but try to do the things that can help you avoid getting hurt.
- 2 Want to get your crew together? A game of hockey, a skating party, or an afternoon of sledding can be a nice change from hanging out at the mall. But before you email those invites, survey the gang. Choose an activity that everyone feels comfortable doing. And you'll have a good time together and fit as a fiddle.
- 3 Ahh, winter! Shorter days. Cold temperatures. Foul weather. Let's face it, spending the winter alternating between napping in bed and splaying across the couch sounds awfully good. But fight the temptation. Winter sports can help you burn calories, increase your cardiovascular fitness, and strengthen muscles. Activities that are weight-bearing (like cross-country skiing or skating) help build stronger and denser bones. Being outdoors and getting exercise are also great for your mental health. Exercise boosts mood and sunlight seems to help beat back the winter blues. So slap on some sunblock and go! If you need more convincing, remember this: staying in shape during the winter gets you physically ready for springtime activities (and wardrobes).
- 4 If you're into sports, you've seen it happen. You've probably even experienced it: Football players shake hands after four quarters of knocking each other around. Tennis players leap over the net to shake hands with their opponents after a hard-fought match. Soccer players exchange jerseys after an intense 90 minutes' long game. Even boxers touch gloves at the beginning of each round, then hug each other after beating each other into a pulp for 12 rounds. It seems like competitors in every event, from spelling bees to hockey, behave this way. What's going on?

It's all part of sportsmanship, a great tradition in sports and competition that means playing clean and handling both victory and defeat with grace, style, and dignity.

- 5 Good sportsmanship means not having a 'win at any cost' attitude. Most athletes who don't have a 'win at any cost' attitude are more likely to talk about how much they love their sport and how much personal satisfaction and enjoyment they get from participation.

Most people won't go on to play professional sports, and only a few will win scholarships to play at college. But many forget to have a good time during the years they do play because they're so focused on winning. And, unfortunately, parents and coaches sometimes put too much pressure on athletes, emphasizing 'winning at all costs. So, although it's great to be a champion, it's even better to have enjoyed the process of trying to reach the top. It's best to play fair while having fun.

### Task 2

Read the text below. For questions (6-10) choose the correct answer (A, B, C or D).

#### Blue Jeans Turned into Green Sandals

According to a Cumbria-based shoemaker, wearing your jeans on your feet is environmentally friendly on a number of levels. One of the handful of shoemaking companies still manufacturing in the UK, Softwalker Ltd., has launched a new online business called [www.recycleyourjeans.com](http://www.recycleyourjeans.com), which takes in people's old jeans and turns them into new sandals. People signing up at the site are sent a prepaid, addressed envelope to pack their (preferably washed) jeans in and send them off for recycling. A week or so later a pair of Kalahari brand sandals guaranteed made from your own jeans arrives in the post.

"This is far from being just a marketing trick," insists Cat Stables, the firm's sales and marketing manager. "Our new environmental range has the lowest carbon footprint of any shoes or sandals in the country, and it's a fun way to personalize your re-cycling." They make a great ecological present for "green warriors." Wearing your old jeans on your feet is a more practical statement than just wearing your green heart on your sleeve. She points out "recycled" does not mean poor quality, far from it in fact. "Our skilled shoemakers used to work for Clarks and K Shoes. We are the last outpost of Clarks manufacturing in the UK, now taken over and run as a family business."

The shoes, according to Cat, are great to look at, wonderfully comfortable to wear, and recommended by doctors to prevent foot problems. They are also not as expensive as many sport shoes. The benefits to the environment will also give customers a warm glow. Cat points out, recycling textiles saves on pesticides, fertilizers, processing chemicals and energy. According to her, "If every person in the UK recycled just one item of clothing each every year the amount of processing water saved would fill an average reservoir."
