ЕКЗАМЕНАЦІЙНИЙ БІЛЕТ № 1

Дисципліна «Іноземна мова(за професійним спрямуванням)»
Спеціальність: 163 «Біомедична інженерія»

I. Read and translate the following text into Ukrainian:

As a result of the formation of a layer of carbon dioxide around the Earth which encloses it like a glass cover the threat of unfavourable changes in climate has arisen that may transform our blue planet into an enormous greenhouse during the next decades, with possibly catastrophic effects. Those include changes in its energy balance and a gradual increase in temperature that will transform fertile regions into arid ones, raise the level of water in the oceans (through the melting of polar and drifting ice) and produce a flooding of great numbers of coastal lands and cities.

II. Give definitions to the following terms:

defibrilatoion, image processing, prevention.

III. Write an essay of 10 -12 sentences to answer the questions:

What does the human body consist of? What is natural immunity? Who is the discoveror of X-rays? What do you know about disease prevention?

Затверджено на засіданні кафедри
Протокол № _____ від „_____” _____ 2017 року
