- **PC 27.** The ability to search from various information sources, use this information to make decisions and develop their alternative options based on the use of information systems and computer technologies.

#### **1.4. Interdisciplinary connections**

The subject “Foreign Economic Activity of the Enterprise” is based on the knowledge of such subjects as: “International Economic Relations”, “Management of Economic Activity of the Enterprise” and is the basis for studying further disciplines, namely: “Export-Import Management”.

## **2. COURSE TRAINING PROGRAM ON THE SUBJECT**

### **2.1. The subject content**

Training material is structured according to the module principle and consists of **two educational modules: Module № 1 "Concept and regulation of foreign economic activity", Module № 2 "Organization of foreign economic activity of the enterprise"**, that are logically complete, relatively independent, holistic part of the subject, learning of which provides module test and analysis of its performance.

A separate (third) module (educational component) is a Term Papers (TP), which is performed in the 7th semester. TP is an important component of consolidation and deepening of theoretical and practical knowledge and skills acquired by students in the process of mastering the educational material of the discipline.

### **2.2. Modular structuring and integrated requirements for each module**

#### **Module №1 "Concept and regulation of foreign economic activity"**

**Integrated requirements to the module № 1:** to understand the essence, types, and principles of foreign economic activity, to analyze the influence of the state regulatory system on the organization of the enterprise’s foreign economic activity processes, to comply with legislative norms and methods of organizing foreign economic activity.

### **Topic 1. Concept of foreign economic activity. The state and trends in the development of foreign economic activity of Ukraine**

Characteristics of the categories of foreign economic activity. Reasons and prerequisites for the development of foreign economic relations and their impact on the national economy. Types, forms and functions of foreign economic activity. Principles of foreign economic activity. Entities of foreign economic activity. Right to conduct the foreign economic activity.

State and regularities of foreign economic activity of Ukraine. Foreign economic policy of the country. Foreign economic policy of Ukraine. The main stages of the development of the FEA in Ukraine. Characteristics of the current indicators of the development of the country’s foreign economic sector. Analysis and evaluation of current stage of development of foreign economic activity of Ukraine.

### **Topic 2. The system of state regulation of foreign economic activity.**

Characteristics of the system of regulation of foreign economic activity. Organizations of financial coordination of foreign economic activities in Ukraine and their competences. Methods of regulating the foreign economic activity.

### **Topic 3. Customs and tariff regulation of foreign economic activity**

The content and principles of customs regulation of foreign trade. Customs bodies of the country: structure, tasks, functions. Tasks, forms and types of creation of customs control. Characteristics of customs procedures. Commodity nomenclature of FEA. Procedure for customs clearance of goods. Original customs documents and formalization procedure. Fee for customs clearance of goods. Customs Value and methods of its determination. Customs as an instrument of economic equalization. Types of duties and duty rates.

### **Topic 4. Non-tariff regulation of foreign economic activity**

Non-tariff measures of regulation, classification and characteristics. Use of non-tariff measures in current conditions. Quantitative restrictions: licensing and quotas. Complementary analysis of the effectiveness of the implementation of import tariff and import quota. List of goods, which need export or import license. Types and methods of distribution of licenses. The mechanism of formalizing documents to obtain licenses. Financial instruments of non-tariff regulation: export funds, export credits, special import procedures. Anti-dumping measures and anti-dumping duty. Technical papers. Requirements for the content of local components. Internal taxes and duties. Certification and standardization of imported goods. Requirements for packaging and labeling of goods. The policy of government procurement.

### **Topic 5. State taxes in the sphere of foreign economic activity**

Types and functions of taxes in foreign economic activity. The content and order of payment of customs payments at the customs office: customs duty, excise tax, VAT. The exact nature of taxation depends on the customs regime. Procedure for reimbursement of VAT under export operations. Problems of budgetary compliance with VAT and methods of discharge.

### **Topic 6. Currency regulation of foreign economic activity**

The essence, main principles and instruments of currency regulation. Foreign exchange policy and control. The procedure for purchasing and using currency. Currency markets

### **Topic 7. Regulation of foreign and direct investment**

Concept of direct and foreign investment. Regulation of foreign investment. Organizational and legal forms of activity of enterprises with foreign investment. Features of the functioning of enterprises with foreign investments.

## **Module № 2. "Organization of foreign economic activity of the enterprise".**

**Integrated requirements to the module № 2:** know: methodological principles of strategic development of foreign economic activity, instruments, processes and methods of forming the strategy of foreign economic activity; system of provision and functional management of foreign economic activity; be able to: develop a strategy of foreign economic activity and a system of functional current actions to ensure its implementation.

### **Topic 1. Foreign trade operations**

Types of foreign trade operations. Stages of implementation of the export-import agreement. Counter purchases in FEA. Leasing. Types of leasing.

### **Topic 2. Forms to enter foreign markets for enterprises**

The conditions and motivation of companies going abroad. Characteristics of the exit form of enterprises to foreign markets. Study and analysis of market conditions. Partners on the global market: search, selection and establishment of contact.

### **Topic 3. Pricing in the foreign economic activity of the enterprise**

Foreign trade price: content of the concept, principles, classification of foreign trade prices. Pricing policy of the company. Factors and functions of price formation in FEA. Transfer prices: content, functions and principles. Specific formation of prices for the production of certain types of industry and raw materials. Terms of price fixation. Determination of the price base. Indicative prices. Currency of the price. Price discounts and allowances. Price strategies and stages of determining the contract price.

### **Topic 4. Trade and business activity on the foreign market**

Content and types of entrepreneurial activity. Classification and characteristics of entities of business activity. Business agreements. Problems of establishment and development of trade and commercial activity in Ukraine.

### **Topic 5. Organization of activities on international commodity markets**

The place of commodity exchanges in the institutional structure of ensuring foreign economic activity. Peculiarities of sale of goods on international exchanges. Types of exchanges. Types of operations on international exchanges.

### **Topic 6. Contractual relations in the foreign economic activity of the enterprise**

The essence of foreign economic agreement. Basic conditions for concluding contracts. Risks under concluding a foreign economic contract and ways to overcome them

### **Topic 7. Transport support of the enterprise's foreign economic activity**

The essence and peculiarities of legal regulation of international transportation. Organization of international transportation. Features of international transportation by various means of transport. Transportation and forwarding services for international transport. Goods and transport documentation. International transport corridors.

### **Topic 8. Evaluation of the efficiency of the enterprise's foreign economic activity**

Economic analysis in the foreign economic activity of the enterprise. Analysis of the fulfillment of obligations regarding the foreign economic contract. Complex analysis and evaluation of the foreign economic activity of the enterprise. Analysis of the rationality of the use of funds in foreign economic activity. Assessment of the financial condition of partners in foreign economic activity. Evaluation of export potential of industrial enterprises.

### Topic 9. Risks in foreign economic activity and methods of their insurance

The essence and classification of risks in FEA. Features of risk management in foreign economic activity.

#### Module № 3. "Term Paper"

In the seventh semester, students perform course work in accordance with the approved the established order of methodical recommendations for the purpose of consolidation and deepening theoretical and practical knowledge and skills acquired by the student in the process of learning material of disciplines in the field of foreign economic activity, which are used in the future when studying many subsequent disciplines of professional training of a specialist with a basic and full higher education.

The purpose of term paper is to consolidate the acquired knowledge and deepen the theoretical knowledge; acquiring the skills of independent creative activity, mastering the scientific method research; an in-depth study of issues based on modern manifestations of the problem that is being investigated.

Completion of coursework forms independent scientific, analytical and search activity of the future specialist. For the successful implementation of TP, the student must know the organization of foreign economic activity, the system of state regulation of foreign economic activity, customs procedures, means of non-tariff regulation, the system of taxation of foreign trade operations, types of foreign economic activity, features of foreign trade operations, methods of selling goods on the foreign market, organization of transport support for export import operations, to be able to analyze the risks and effectiveness of foreign economic activity.

Execution, registration and defense of TP is carried out by the student individually according to methodical recommendations.

The time required to perform the TP - up to 30 hours of independent work.

#### 2.3. Training schedule of the subject

#### 2.4. Questions list for the examination

The list of questions and content of tasks for preparation for the examination are developed by the leading teachers of the department in accordance with the course training program and distributed among students.

### 3. BASIC CONCEPTS OF GUIDANCE ON THE SUBJECT

#### 3.1. Teaching methods

The following teaching methods are used when studying an academic discipline:

- verbal (explanation, explanation, story, conversation, lecture);
- visual (illustrations, demonstrations);
- practical (practical tasks, production situations);
- reproductive (algorithms for performing practical and independent tasks);
- problem presentation (formulation of problems, search for ways to solve them);
- partially research-based (independent study of course questions);
- research (individual student work);
- analytical (temporal analysis, structural analysis, comparative analysis, trend analysis analysis).

	Quality Management System. Course Training Program on “Foreign Economic Activity of the Enterprise”	Document Code	QMS NAU СТР 19.06-01-2023
		page 11 of 13	

The implementation of these methods is carried out during lectures, practical classes, independent problem solving, work with educational literature, etc.

#### 4. RATING SYSTEM OF KNOWLEDGE AND SKILLS ASSESSMENT

4.1. Grading of different kinds of academic activities performed by a student and obtained knowledge and skills are realized in values in line with Table 4.1.

Table 4.1

Kind of Academic Work	Maximum Grade Values
	Full-time
<b>Module № 1</b>	
<b>7th semester</b>	
Kind of academic work	Grade values
Carrying out case studies on practicals	5 points × 4 = 20
Carrying out test tasks	2 points × 5 = 10
<i>For admission to complete module test № 1, a student must receive not less than</i>	18
Carrying out Module Test № 1	10
<b>Total by the Module № 1</b>	<b>40</b>
<b>Module № 2</b>	
<b>7th semester</b>	
Kind of academic work	Grade values
Carrying out case studies on practicals	6 points × 3 = 18
Carrying out test tasks	4 points × 3 = 12
<i>For admission to complete module test № 2, a student must receive not less than</i>	18
Carrying out Module Test № 2	10
<b>Total by the Module № 2</b>	<b>40</b>
<b>Total by the Modules № 1, № 2</b>	
<b>Semester examination</b>	
<b>Total by the subject</b>	
<b>100</b>	
Kind of academic work	<b>Module № 3</b>
Term Paper preparation	60
Term Paper defense	40
<b>Preparation and Defense of Term Paper</b>	
<b>100</b>	

4.2. The completed curricular activity is accounted enrolled student if the student received for them a positive rating.

4.3. The sum of grades received by the student for certain types of completed educational work is the Current Module Grade, which is entered into the Module Register.

4.4. The sum of the Current Module Grade and Control Rating Grades constitutes the final Module Grade, which is converted into a grade on the national scale and the ECTS scale (Appendix 2).

4.5. The Examination Grade consists of points based on the results of the examination tasks, approved by the department in the established order. Total Semester Grade equals to the sum of the Semester Module Grade and the Examination Grade, which is transferred in grades of National Scale and ECTS grades.

4.6. The Total Semester Grade is entered into the Examination Register, educational cards and into a student's record book in values, National Scale grades, and ECTS Scale grades, for example: *92/Excellent/A, 87/Good/B, 79/Good/C, 68/Sat./D, 65/Sat./E*, etc.

4.7. The Total Grade received by the student for carrying out and defense of term papers is entered into the Examination Register, educational cards and into a student's record book in values, National Scale grades, and ECTS Scale grades, for example: *92/Excellent/A, 87/Good/B, 79/Good/C, 68/Sat./D, 65/Sat./E*, etc.
