### 1. EXPALANOTRY NOTE

The Course Training Program on "Human Resource Management in Transport Industry" is designed based on the "Methodological guidelines for the development and performance of the Training Program and the Course Training Program of the subjects" entered into force by the order No 106 dtd. 13.07.2017 and corresponding normative documents.

This subject develops students' human resource and personnel managerial competences for enterprises and airlines.

The goal of the teaching this discipline is to familiarize students with HRM principles, strategies and policies in recruiting, selecting and appraising employees.

The objectives of studying the discipline are to deepen students' theoretical knowledge of:

- human resource management organization in transport;
- personnel policy;
- human resource planning;
- personnel recruitment;
- personnel selection;
- personnel training;
- civil aviation employee payment and motivation;
- employee team relations management;
- international human resource management practices.

As a result of studying this discipline the student must:

### Know:

- general definitions and terminology of the discipline;
- optimal workplace organization and equipment operation;
- business activity planning, organization and management;
- application of regulatory standards for transport service provision;
- human factor impart on in transport activity.

#### Be able to:

- differentiate the functional of HRM and personnel management;
- organize and conduct interview for personnel recruitment;
- plan company's personnel management policy;
- improve employee stimuli, etc.

The educational material of the discipline is structured according to the modular manner and

consists of one training module "Human Resource Development, Nurture and Use in Transport".

### 1.2 PLAN OF THE SUBJECT

### 1.1. Module 1 "Human Resource Development, Nurture and Use in Transport".

### Topic 1. Fundamentals of Human Resource Management. Systematic Approach to Human Resource Management.

Course objectives and learning outcomes in the system of transport specialists training. ICAO Standards and Recommended Practices for Aviation Personnel Training and Management. HRM goals. Key HRM concepts. Organization management models.

Paternalism concept. Classical theory. Human relations theory. Personnel resource treatment. HRM vs personnel management.

HRM levels. HRM organizational structure in aviation. Interaction between HRM division and other structural units of the enterprise.

Topic 2. HRM as social system. Personnel recruitment and selection.

Document Code QMS NAU CTP 19.01 – 01-2019

Page 5 of 11

Subject-object identification of personnel. Personnel classification. Personnel structure. Organizational and functional structure. Social structure and analysis. Staffing structure.

Labour force classification. HR recruitment technique. IT in HR recruitment. Aircraft maintenance personnel recruitment.

Initial personnel selection. Selection procedure. Decision-making. Contract-making. Hiring.

### . Staffing policy. HR planning.

Staffing policy elements. Types of staffing policy. Personnel department as a staffing policy implementation tool. Modern aviation enterprise personnel department structure.

HR planning factors. HR planning methods. Steps to aviation enterprise HR planning.

### Topic 4 HR motivation. Labour Relations Management. New employee integration.

Employee motivation technique. Employee motivation theories. Remuneration system, its components. Remuneration methods. Civil aviation personnel remuneration.

Team and small group concept. Leadership, its nature. Essence and stages of team cohesion.

Orientation, its goal. Airline and workplace data. Adaptation, its types. New employee integration. Socio-psychological adaptation of aviation personnel.

### Topic 5. HR development management. Social development and corporate culture in organization. Strategic HR management.

Career, its types. Personnel assessment. Aviation personnel assessment criteria. Personnel assessment methods.

Aviation personnel corporate culture impact on Aviation Safety. Conflicts, nature, types, management styles.

Conservative and flexible HRM approach. HRM strategic models.

### 2.2.1 Homework

The homework assignments given to students in the 3<sup>rd</sup> semester under the approved method guides are aimed at harnessing and improving students' theoretical and practical knowledge and skills in HRM for the transport industry

### 2. SUBJECT CONTENT

### 4. Rating system of assessing students' knowledge and skills acquired

4.1. Students' work on the course and obtained knowledge and skills are credited according to the points given in table 4.1.

Table 4.1

| 3 <sup>rd</sup> semester                     |            |       |  |
|--|------------|-------|--|
| Module N                                     | No 1       | Max   |  |
| Assignments                                  | Max. score | score |  |
| Practicals Nos. 1.1-1.8                      | 48         |       |  |
|  | (total)    |       |  |
| Homework                                     | 20         |       |  |
| To be admitted to module test No 1 the stude |            |       |  |
| points                                       |            |       |  |
| Module test results                          | 20         |       |  |
| Module test № 1 totals                       | 88         |       |  |
| Semester exan                                | 12         |       |  |
| 3 <sup>rd</sup> semester                     | 100        |       |  |

4.2. The student receives his/her credit if graded positively (See table 4.2).

Table 4.2

Scores as per work done (national grading scale)

|              | National grading |              |              |
|--------------|------------------|--------------|--------------|
| Practicals   | Homework         | Module test  | scale        |
| 43-48        | 18-20            | 18-20        | Excellent    |
| 36-42        | 15-17            | 15-17        | Good         |
| 29-35        | 12-14            | 12-14        | Satisfactory |
| less than 29 | less than 12     | less than 12 | Bad          |

4.3. The points the student receives for single assignment are scored for a module grade records.

Document Code QMS NAU CTP 19.01 – 01-2019

Page 9 of 11

4.4. The practical and module test points are scored for a final module grade records (See table 4.3).

Final module scores as per national grading scale

Table 4.3

| Module No 1  | National grading scale |
|--------------|------------------------|
| 79-88        | Excellent              |
| 66-78        | Good                   |
| 53-65        | Satisfactory           |
| less than 53 | Bad                    |

4.5. The final semester module score is the final semester module grade converted into the national grading scale (table 4.4) (in module No 1 it is the same as in table 4.3).

Table 4.4 Final semester module grades as per national grading scale

Table 4.5 Module test grades as per national grading scale

| Grades       | National grading scale |
|--------------|------------------------|
| 79-88        | Excellent              |
| 66-78        | Good                   |
| 53-65        | Satisfactory           |
| less than 53 | Unsatisfactory         |

| Grades      | National grading scale |  |
|-------------|------------------------|--|
| 11-12       | Excellent              |  |
| 9-10        | Good                   |  |
| 7-8         | Satisfactory           |  |
| less than 7 | Unsatisfactory         |  |

4.6. The final semester module and exam grades are scored for the final semester grade converted into national and ECTS grading scales ( $\tau a \delta \pi$ , 4.6).

Table 4.6

## Final semester grade as per national and ECTS grading scale

|                 | National grading | Оцінка за шкалою ECTS                                       |  |  |  |
|-----------------|------------------|---|--|--|--|
| Grades          | scale            | Grade   | Grade Explanation  |  |  |
| 90-100          | Excellent        | A (highest score for semester performance with fermistakes) |  |  |  |
| 82-89           | В                |   | Very good (above average level with few mistakes)            |  |  |
| 75-81 Excellent |                  | C   | Good (generally good performance with some serious mistakes) |  |  |
| 67-74           | Satisfactory     | D   | Satisfactory (not bad, but few pitfalls)                     |  |  |
| 60-66           | •                |   | Acceptable achievement (satisfies minimum criteria)          |  |  |
| 35-59           | FX               |   | <b>Bad</b> (module test must be repeated)                    |  |  |
| 1-34            | Unsatisfactory   | F   | Bad<br>(course must be repeated)                             |  |  |

4.7. The final semester grades in national and ECTS scales are submitted to the credit-exam reports, student's record book and academic registry.

Document Code QMS NAU CTP 19.01 – 01-2019

Page 10 of 11

4.8. The example of final semester grade entries in student's record book and academic registry: 92/Ex./A, 87/Good/B, 79/Good/C, 68/Sat./D, 65/Sat./E etc.

4.9. The final course grade is the same as the final semester grade. The final course grade is recorded to the Diploma Supplement.
